What's Included

- TS-ParamScape Suite (TS-ParamScape3D + TS-ParamScapeRank) installer
- TS-PortfolioMerge installer
- User Manuals (PDF) — installed to Start Menu

Requirements

- Windows 10/11 (64-bit)
- Default web browser (for interactive Plotly views in TS-ParamScape3D)
- No Python or extra software required

Download & Prepare

1. Create a folder (e.g., Desktop\TS-MergeBundle).
2. Download your ZIP files from your purchase page (PayHip or store).
3. Right-click each ZIP → Extract All... into the folder you created.

Install

4. Run TS-ParamScapeSuite-Setup.exe to install ParamScape3D & ParamScapeRank.
5. Run TS-PortfolioMerge-Setup.exe (latest version).
6. If Windows SmartScreen appears: click More info → Run anyway.

Launch & First Run

- Start Menu → TS-ParamScape3D / TS-ParamScapeRank / TS-PortfolioMerge.

- TS-ParamScape3D: interactive Plotly opens in your browser when selected.
- TS-PortfolioMerge: load TradeStation/MultiCharts .xml performance reports.

Tips

- ParamScape file layout: parameters appear before 'Test' (or before the first 'Net...'), metrics after. TSV/CSV supported. (User Manuals include examples.)
- For SmartScreen prompts, ensure files are unblocked after extracting ZIPs.

TS-Portfolio Merge and TS-ParamScape Installation Guide

Read this first. When you purchase the Bundle you will need to download multiple files. I would create a folder on your DeskTop – something like TS-MergeBundle. I would then download all the files including the .zip files to this folder. Note – the image for TS-PortfolioMerge-v1.06 will now read **TS-PortfolioMerge-1.13-Setup**

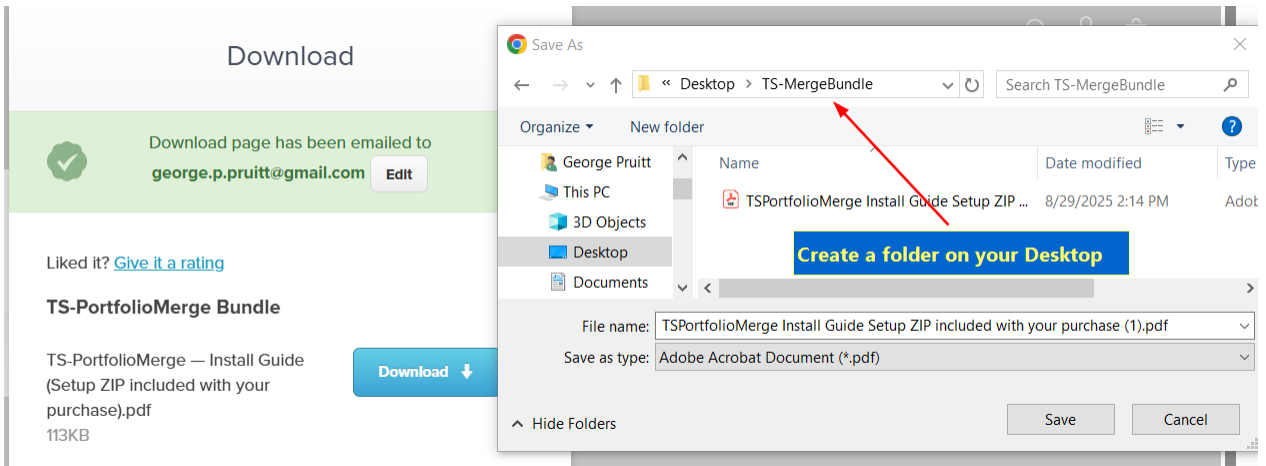

Download

Download all your files can. Sometimes when you download the first

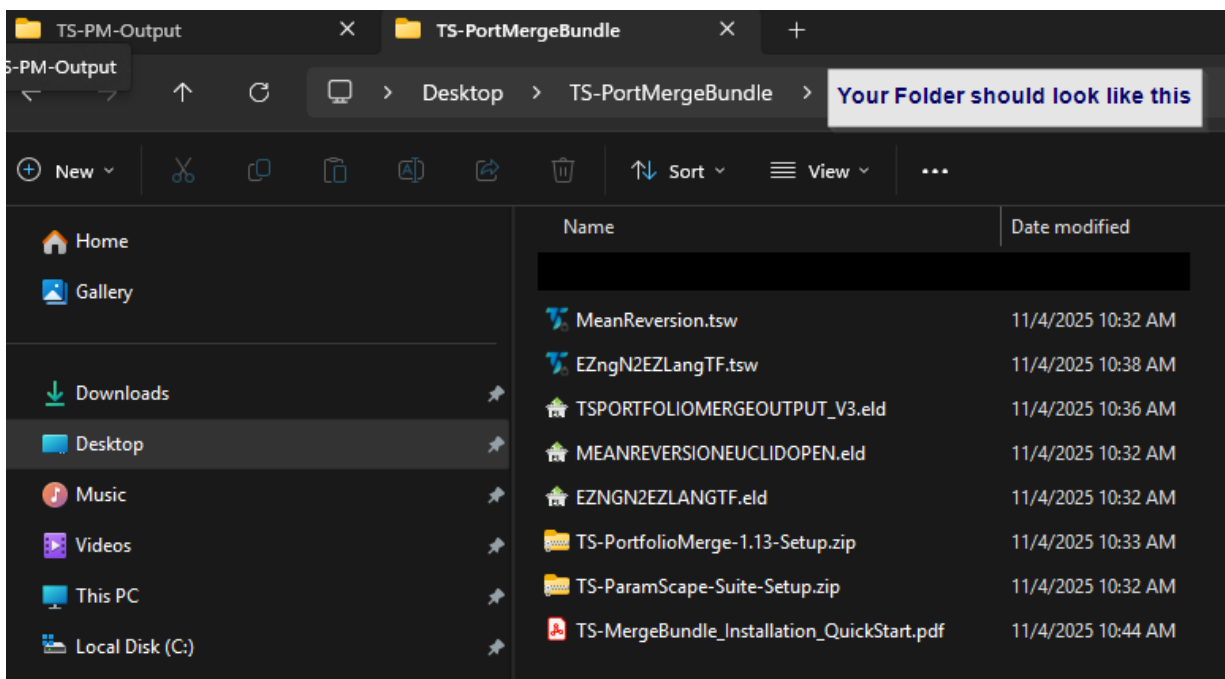

to this folder – if you you download a zip file it downloads folder. Once zipped installation file, open it and select Extract all and extract the file to you Desktop folder

Your folder should look like this.

You will have **two** .tsw and **three** .eld files. You will also have two installation executables:

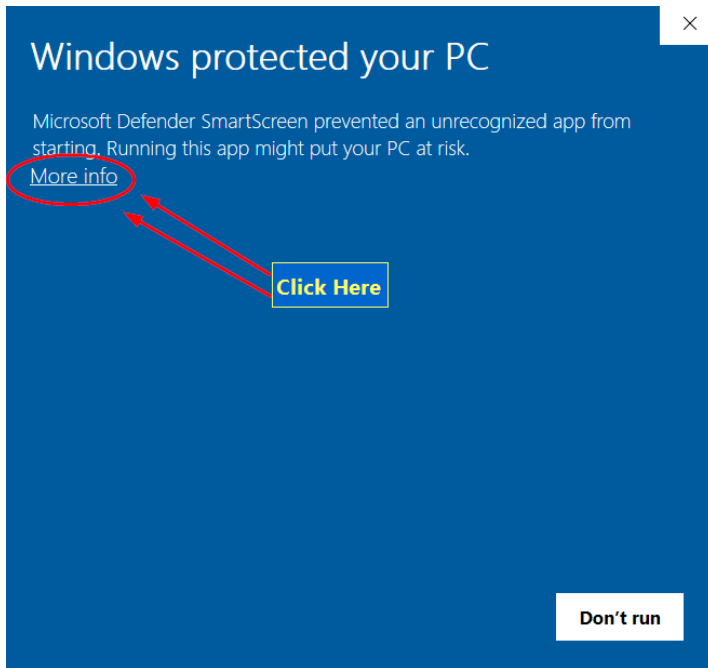

- TS-ParamScape-Suite-Setup.exe
- TS-PortfolioMerge-Setup.exe
- *1.13 TS-PortfolioMerge Update – you will also have the **TSPORTFOLIOMERGEOUTPUT_V3.eld***

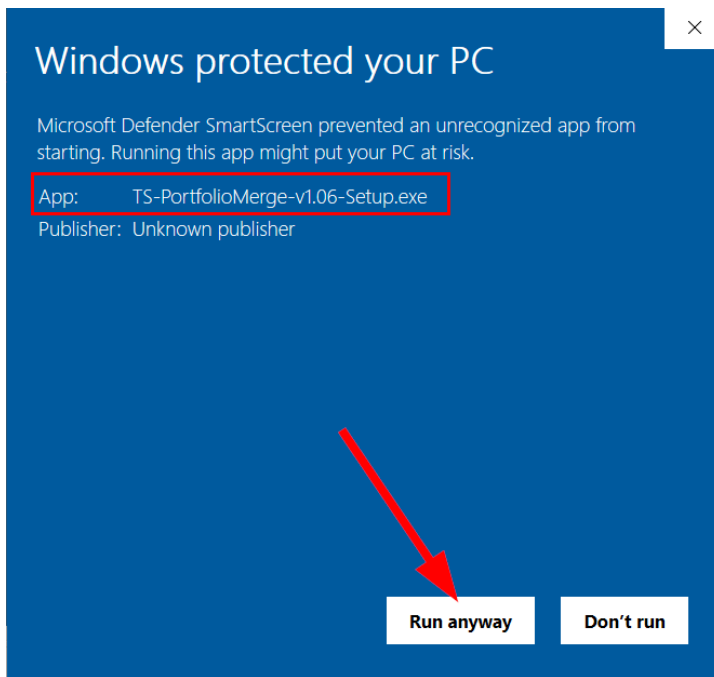

Name	Modified
EZNGN2EZLANGTF.eld	8/29/2025 2:29 PM
EZngN2EZLangTF.tsw	8/29/2025 2:28 PM

TS-PortfolioMerge-v1.06-Setup.exe	2 8/29/2025 2:30 PM

TS-PortfolioMerge-v1.13-Setup.exe will show instead of v 1.06

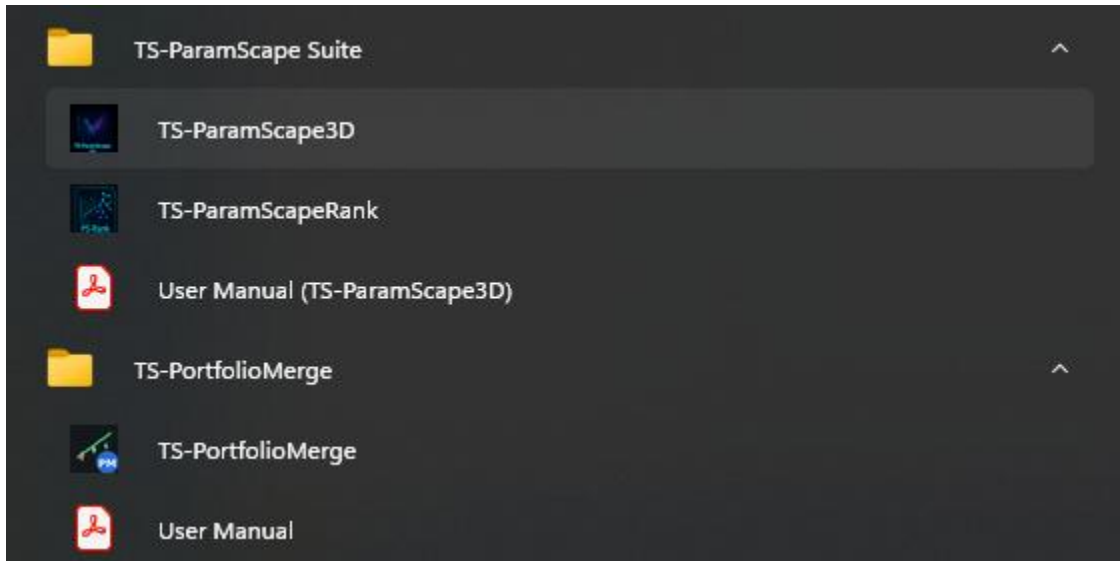

You will get a warning – Click More Info

Then Click Run anyway

When you finish installing the TS-PortfolioMerge and TS-ParamScape3D (ParamScapeRand is installed too), your Start Menu should look like this:

If you already have Strategies that can output Strategy Performance Reports in .XML format and Strategy Optimization Report as .TXT, then you are ready to go. If you don't, then you can import the included .ELD and open the two .TSW workspaces to play around with and export your data.
